IBM

Business Operations Analyst

July 2022 - August 2023 (1 year 2 months)

London, England, United Kingdom

Undertaking a year in industry within the Communications Sector in IBM Consulting.

Business Analyst operating on PLM Discovery for a New Nuclear Build (NNB) Client.

- o Conducted stakeholder interviews to better understand the business and establish process pain points and future requirements.
- o Utilised Generative AI to create Stakeholder Personas by inputting data collected from the interviews.
- o Assisted in PLM product evaluation through the development of a weighted product requirements matrix.

PMO for delivery phases for a NNB Client.

- o Responsible for RAICI, Raid logs, onboarding/offboarding, internal/external communication strategy.

Bid Strategy for IBM Energy, Environment & Utilities Sector.

- o Provided support for bid teams by working with and collating content from Subject Matter Experts (SMEs).
- o Coordinated Loopio, a content intelligence programme for bidding, for the sector. I vetted, uploaded and managed content to improve the systems efficacy when being used by bid teams.
- o Responsible for bid tracking. This included making sure each team had adequate funds and resources, and was on track for their required milestones in order to produce the right quality of work.

Executive Assistant for UK Communications Sector Leader.

- o Responsible for sector wide communications, Sector KPI reporting and event coordination.
